The big Dissemination Event in Tirana is organized in finalizations the BKSTONE Project and output results are presented from each partner in Consortium with short presentations. The other involved stakeholders are presented the impact of the project in many fields related to the Stone Industry.

The University of Prishtina, through the Faculty of Civil Engineering staff was very active in this project and the benefits are:

- E-books related to Mining, Geology, Constructions and Architecture
- Equipment for testing the Stone in Laboratory of Materials
- Software DIANA – for use by staff and students
- Improve the modulus of lectures according to the European Partners
- Presentations from Foreign Universities, such as part of the project
- Creating the connection between our students and students from other countries, part of the project
- Increase the impact of HEI in Stone Industry

The activities are followed with photos, in attachment.
