Notice:

The submission of exams by students on the SEMS platform for regular exam periods, as well as the closure of SEMS for final evaluations, is carried out according to the calendar:

1	For the regular January exam period	The first 10 days of January of the respective year	February 20th of the respective year.
2	For the regular June exam period	The first 10 days of June of the respective year	July 25th of the respective year.
3	For the regular September exam period	The last 10 days of July of the respective year	September 20th of the respective year.

Ref. nr. A39/1 Prishtinë 22.01. 2025

Based on the Statute of the University of Prishtina, Article 56, regarding the approval of the regular exam session calendar for students of all study programs of the Faculty of Civil Engineering, generalized for academic years, the Council of the Faculty of Civil Engineering, in its meeting held on January 16, 2025, hereby adopts the following:

DECISION

I

The General Calendar for the organization of regular exam sessions is hereby approved as follows: January session (from January 16 to February 15); June session (from the second week of June until the end of the first week of July); and September session (from the last week of August until September 15), for students of all study programs at the Faculty of Civil Engineering.

II

For the January session, exam submission in the SEMS platform by students is open from January 1 to January 10 of the respective year. The SEMS platform closes for January session exam entries on February 20 of the respective year.

III

For the June session, exam submission in the SEMS platform by students is open from June 1 to June 10 of the respective year. The SEMS platform closes for June session exam entries on July 25 of the respective year.

IV

For the September session, exam submission in the SEMS platform by students is carried out during the last week of July of the respective year. The SEMS platform closes for September session exam entries on September 20 of the respective year.

V

According to the published exam calendar, the weekday listed for the organization of the exam is counted from the beginning of the month, regardless of whether the week is full or not, excluding any official holidays marked on the calendar.

VI

For every exam organized by the teaching staff, the published calendar for exam organization as per this decision must be strictly followed, and no date in the calendar may be changed. Any failure to comply with the exam organization calendar will render the exam invalid. In cases where an exam date falls on an official public holiday, the Faculty Management will issue a decision for rescheduling the exam to another official date.

VII

According to the exam organization calendar, each lecturer is obliged to publish the results achieved by students in the respective exam no later than within 3 days. For courses that organize exams in two parts (the numerical part – according to the calendar, and the theoretical part), the theoretical part of the exam must be organized no later than 7 days after the announcement of the results.

VIII

The announcement of students' exam results is communicated via official email—specifically, from the lecturer's official email address in the domain @uni-pr.edu to the student's official email address in the domain @student.uni-pr.edu. Public announcements of student results on social media are not allowed; in such cases, the results are considered invalid.

IX

The calendar for the exam sessions is published on the official website of the Faculty of Civil Engineering: www.fin.uni-pr.edu.

The Decision is sent to:

1. Vice Dean for teachings of FCE.
2. Heads of Departments of FCE.
3. Academic Staff of FCE (F1, F2 and F3)
4. Student Services of FCE
5. FCE Archive
