

Institution: University of Prishtina
Academic Unit: Faculty of Civil Engineering
Study Program: Structural Engineering
Level of Study: Master
Number of ECTS Credits: 120

EMPLOYMENT PROSPECTS FOR GRADUATES

The student perspective overview for the study programs of the University of Prishtina aims to reflect the general opportunities for employment and further studies after graduation. This approach helps the university highlight its role in preparing qualified professionals who can meet the demands of both the local and international labor market.

No.	Possible Position	Job Role	Employment Sector	Further Study Opportunities
1	Structural Engineer	Structural design and Eurocode verification	Design studios, construction companies	PhD in Structural/Civil Engineering
2	Structural Analyst	Advanced modelling (ETABS, SAP2000, Autodesk Robot)	Local & international consultancies	PhD in Structural Engineering
3	Construction Project Manager	Project progress supervision, technical leadership	Construction sector, NGOs, contractors	Professional certification, PhD
4	Senior Geotechnical Engineer	Foundation and geotechnical design	Geotechnical & construction firms	Advanced Master / PhD in Geotechnics
5	Quality Control Expert	Technical inspections, structural audits	Public institutions, municipalities	Advanced studies in Structural Safety
6	Researcher in Structural Engineering	Laboratory research, scientific publications	Universities, research institutes	PhD in Civil Engineering
7	Safety & Risk Consultant	Risk assessment, performance-based analysis	Insurance companies, engineering firms	Specialization in Risk Engineering
8	Infrastructure Structural Engineer	Design of bridges, tunnels, infrastructure structures	Infrastructure companies, EU-funded projects	PhD in Infrastructure/Civil Engineering
